

2018-2019 BES School Goals

- School performance data, aggregated classroom data, and observation data will be regularly reviewed to make individualized decisions pertaining to student's needs.
- Build a foundation of safe and caring support to meet the social emotional needs of individual students and families that will enable them to experience hope and the joy of discovering and valuing themselves, others, and the world.
- To improve student achievement and teacher effectiveness through review and development of PACE approved performance based assessments and corresponding project based learning units of instruction.
- To improve student achievement and teacher effectiveness by engaging teachers in ongoing, embedded professional learning within team structures to establish specific action plans, accountability for implementing instructional practices, and communication guidelines that increase student learning.

2018-2019 SAU Goals

Goal 1- Develop supports to create safe learning environments by connecting schools, families and community resources.

Wrap around services

Responsive Classroom

SAU Student Services Coordinator

Developing positive school climate and culture

Comprehensive School Counseling program

Family Outreach

Educate students about social media

Community Resource Team (CRT)

School Safety Training

Meet Homeland Security Requirements

New SAU committee to design practices and procedures around trauma sensitive schools

As measured by:

SEL Assessments

Increased individualized student growth

Individual Alternatives

Fewer referrals

Family engagement

Enhanced support services

GOAL 2- Continue competency and assessment collaboration within the SAU.

Performance Assessments

Project Based Learning lessons

Collaboration among schools

Task Assessment Development

ELO's

As Measured By:

Communication of Student Growth

Record of Mastery

Evidence of task development (in all subject areas)

Fidelity implementation, methods & procedures
