Weekly Update

Hello BES families!

I just wanted to give you an update about the beginning of school...sort of. The BES School Board will be announcing all of the details of our reopening plans, including the hours of the school day, on Monday night at their Board meeting. As soon as the meeting is over, I will send out all of the information.

Hebert Construction is planning to begin the installation of the ventilation units beginning the first week of September. Installation could take up to two weeks. The Board will be considering this in their decision.

I wanted to take a moment to express my gratitude to everyone who is part of the BES community. Planning a safe school year during a pandemic has been a challenge for all of us. Throughout the summer I have felt nothing but support and understanding from everyone, and I know that many administrators are not that lucky. The Board, the staff, the families and the SAU staff have truly worked together to begin this school year. Open communication is a priority to me, and I really appreciate the questions and concerns that have been shared with me. So thank you for your patience, understanding and support. We will get through this together!
