

Distance Learners

There have been some great questions asked about distance learning. It is really important that your child/children complete ELA and math lessons five days each week. It is sounding like one or two lessons each day is appropriate. Science and social studies lessons should be completed two or three days each week. At least two hours per day should be spent engaged in learning through the platform you are using. Families of kindergarten students may find that an hour per day is sufficient.

If you have any questions, these are your school contact people:

K-1 Donna Brooks dbrooks@bethlehem.k12.nh.us

1-2 Rosie Shea rshea@bethlehem.k12.nh.us

3-4 Sara Cascadden scascadden@bethlehem.k12.nh.us

5-6 Jen Ingerson jingerson@bethlehem.k12.nh.us

Remember that you may submit a receipt each month to be reimbursed for the cost of Time 4 Learning. On November 20 you can reassess your family's situation and decide to continue distance learning or come back into the building.
