

Quarantine/Absence Guidelines during Covid

Dear BES Families:

As a staff we discussed what remote learning will look like for children who are quarantining at home with Covid symptoms. Unless your child is unable to complete work due to their sickness, it is expected they will complete school work for each day they are absent. These are the quarantine remote learning guidelines:

*Each classroom will have links to websites and lists of activities to do while your child is home from school that can be found on their Google classroom.

*In order to be considered remote learning and present for the day, all daily expectations listed must be met by 7:00AM the day following the absence, or your child will be marked absent. If you have circumstances that don't allow for work completion by 7:00AM the following day, please reach out to the teacher to discuss this.

*Teachers are not available during school hours to answer questions that you have. If you find you need some help, teachers can be reached from 1:45-2:45 once the in person learners have gone home.

Thanks so much for your patience and understanding!
