Special Education Parent Advisory Council (SEPAC)

Dear Parents/Guardians:

Does your child have an Individualized Education Plan (IEP), 504 plan, or special educational needs? Would you like to learn more about how you can effectively advocate for and assist your child in and out of the school environment? Want to connect with parents and teachers who share similar concerns for their children?

Whether you are new to the special education process or have been handling it on your own for some time, we would like to invite you to join our new Special Education Parent Advisory Council or SEPAC. The SEPAC will consist of a core group of parents and teachers dedicated to working towards developing the understanding, respect, and support of all students and families of students with special needs in the SAU 35 community. The group works in partnership with the schools and teachers to promote an environment where children with special needs have equal access to educational opportunities and to ensure that our schools are safe, nurturing, and challenging learning environments for all children.

Our first meeting will be in March and the first thing on the agenda will be to solidify a plan of action. We will hold monthly meetings thereafter. Dates and times to be determined. If you are interested in participating, please contact me with any questions.

Sincerely,

Bryan Smith, MEd
SAU 35 Special Education Consultant
